RE: SWIFT TARP

Dear Bryce:

I wanted to take this opportunity to thank you for introducing the Swift Tarp system to us. We have been so happy with the way this system works within our company. We have many loads that we need to tarp on our trailers, and this system has been a pleasure to use.

It is very effective, safe and reliable as well it is built very strong and has never let us down. We no longer have drivers climbing up on their loads in order to roll-out tarps. This system will always ensure that we prevent and eliminate the risk of Falling from Heights. Our forklift drivers have found this system to be easy and simple to hook up, and our truck drivers and lease operators as well as many outside carriers find this type of equipment a dream come true.

We are now ahead of our competition with the speed and efficiency of this system.

Thank you very much Bryce and congratulations on a job well done!

Sincerely,

A handwritten signature in blue ink that reads "Daniel Smith". The signature is written in a cursive, flowing style.
