SwiftTarp

Attn: Bryce Stevenson

Dear Bryce:

I thought I would take a few moments to let you know how much we appreciate and value using your tarping frame within our operation.

As you know we started with one frame here in Surrey and now have them in all of our facilities across Canada.

It takes our yard people moments to attach to a forklift, and our drivers minutes to attach their tarp to the rings. By dropping the tarp on the load, it eliminates anyone having to leave the ground. The safety aspects of this alone are well worth the cost, but the savings in driver time is a productivity benefit to both the driver and company.

In the three years we have been using them, we have had neither breakdown nor damage to the frame or tarps.

I would certainly recommend the use of your product to anyone in our business who values the aspects listed above.

Sincerely,

Keith DeBlaere
General Manager
Tenold Transportation LP
